Prices shown are retail price including VAT, excluding further taxes / duties and delivery charge. The price is subject to change and may vary by market.

Optional features and their availability may differ by vehicle (bodystyle and powertrain) and country or require the installation of other features in order to be fitted. Note that some standard features may be replaced when specifying a vehicle or selecting trim levels. Please contact your local Retail Partner for more details or configure your vehicle online. Warranty periods offered by INEOS on certain features may be limited and differ in duration. Please refer to the INEOS Automotive Manufacturers Warranty Terms and Conditions for details of variations and exceptions.

INEOS reserves the right to make updates to the product offering including specifications, options and accessories. As such, the quoted prices and specifications in the (Price List/Brochure/Website/Configurator) are indicative and may not reflect current offering and availability. Pricing and details provided do not constitute an offer for the sale of any particular vehicle at any particular price or specification.

Additional options offered for the vehicle may affect performance, emissions, exterior dimensions and off-/on-road geometry. Loading equipment on the roof may change the vehicle's handling characteristics and users should not load the vehicle, any options or accessories (or any part of them) beyond their intended capacities.

Only use in-car features when safe to do so. Driving while distracted can result in loss of vehicle control, damage to property, injury or death. Always obey local laws and speed limits.

Off-road driving and use of related equipment (including options and accessories) requires advanced training and experience. Improper use of the vehicle or other equipment may be unsafe and could result in property damage and/or injury to users and/or other parties. It is the user's responsibility to check the vehicle, equipment, route and conditions ahead before proceeding. Consult the Owner's Manual, applicable accessories manual/instructions or your closest Retail Partner for more detail.

All models have been tested in accordance with the NEDC and as such all l/100km and CO₂ figures quoted are full NEDC figures. NEDC figures may be adjusted according to the final specification of your vehicle.

The CO₂ emission (Diesel – 247g/km, Petrol – 300g/km) and fuel consumption (Diesel – 9.3l/100km, Petrol – 12.8l/100km) figures quoted by INEOS are Combined Cycle estimates. Where a range is quoted, the low figure is from a base vehicle, high from a fully optioned vehicle with off-road tyres. Passenger vehicles are tested with 15% of payload. Commercial vehicles are tested with 28% of payload (Bodystyle and powertrain availability may vary by market). These figures may not reflect real world driving conditions, which will depend upon a number of factors including variations in weather, driving styles, vehicle load and accessories fitted (post-registration).

Final CO₂ emissions figures and resulting associated pricing will be confirmed by INEOS Automotive or your selected Retail Partner prior to order confirmation. Tests will be performed in accordance with legislation in force at the time of type approval.

The Utility Belt option has restricted usage on-road, dependant on local laws.

The aniline saddle leather is untreated and is subject to staining and discolouration as it absorbs moisture and oils and will fade and/or discolour when exposed to the sun. Due to the nature of the material, we are unable to include the Saddle Leather Driver's Pack within our full vehicle warranty and cannot accept responsibility for any staining, fading, discolouration or any other defects typical of this leather type caused by natural wear or otherwise. By selecting the Saddle Leather Driver's Pack you acknowledge acceptance of the above information. Please refer to the Warranty T&Cs for more detail.
